- Suojaa virtajohto öljyltä, kuumuudelta ja teräviltä reunoilta
- Korvaa akku aina alkuperäisellä Scangrip-akulla
- Korvaa akku aina uudella samantyyppisellä akulla; emme kuitenkaan suosittele valaisimen avaamista, koska se ei ole sen jälkeen enää vesitiivis.
- Valaisimen valonlähde ei voi vaihtaa; valonlähteen rikkoutuessa pitää koko valaisin vaihtaa.
- Valaisinta saa käyttää vain palamattomalla alustalla
- Lataa valaisin aina sisätiloissa
- Jos lampua ladataan sen ollessa päällä, laturi kykenee lataamaan akkua korkeintaan n. 30 %. Kytke lamppu pois päältä akun täyteen lataamista varten

Käytettyjä sähkölaitteita ei saa hävittää talousjätteen mukana. Toimita ne mieluummin kierrätyskeskukseen. Kierrätysohjeita saat kunnan viranomaisilta tai jälleenmyyjiltä.

- Poista akku laitteesta ennen sen hävittämistä
- Laite pitää irrottaa sähköverkosta, kun akku poistetaan
- Akku on hävitettävä turvallisesti
