

TECHNICAL DATA SHEET

Winter car set

Art. no. 0892 332 990

P. Qty.: 1

Practical aid for the colder months

Complete package:

All products needed for the colder months in a single set

Quick and simple to use:

- Laboriously „scraping clear“ or „heating up“ windows or locks is no longer necessary
- Frozen windows or locks are quick to de-ice, while also being protected
- Windows and locks are less likely to ice over again
- Clear view in a matter of seconds; also loosens stubborn winter dirt such as road salt, oily dirt from the road etc.
- Prevents the inside of windows from fogging; thanks to special active agents in the anti-fog cloth
- All detergents in the product are extremely gentle on materials

Application area

The 4-piece Würth winter kit helps car drivers in a wide array of situations during the colder months. Frozen windows can be thawed just as easily and quickly. In order to protect windows from icing over while driving, even at extremely cold temperatures (down to -63°C), the winter kit also includes anti-freeze for windscreen washer systems. An ice scraper and a microfibre cloth for misted windows are also included in the kit.

When filling the windscreen washer system, please observe the following mixture ratios for the anti-freeze:		
Screen wash	Water	Anti-freeze down to approx.
Concentrate	-	-63°C
2 parts	1 part	-35°C
1 part	1 part	-23°C
1 part	2 parts	-12°C

Application information

Spray icy windows from top to bottom with de-icer spray and let it take effect briefly; remove the thawed ice using the ice scraper. Use the microfibre cloth to clean any misted windows on the inside before setting off. Drip the door lock de-icer into the door lock and let it take effect briefly. The lock can then be opened again.
